PROFILE

Full Stack Developer with a strong focus on backend development, experienced in designing and delivering scalable, secure, and high-performance applications. Skilled at building end-to-end solutions, integrating complex systems, and optimizing application performance. Adept at collaborating with cross-functional teams, solving technical challenges, and delivering clean, maintainable code that meets business objectives and enhances user experience.

WORK EXPERIENCE

Mantravat Infotech
Full Stack Developer

2025 - PRESENT

- Developed a comprehensive School Management System using React, Node.js, and SQL, featuring role-based authentication, student progress tracking, and efficient database management for improved operational efficiency.
- Built and deployed a cross-platform web application for TaurusAI using Flutter and Firebase, implementing real-time database operations, secure authentication, and a responsive UI for seamless user experience across devices.

Node8 Innovations

2024 - 2025

Flutter Developer (Intern)

- Developed and deployed the Fruitsy application using Flutter, enabling users to purchase fruits packaged in customizable box sizes (small, medium, large) with an intuitive and responsive user interface.
- Built the PaperBox application in Flutter for centralized school management, integrating features for handling multiple schools, student data, and operational workflows in one platform.
- Implemented cross-platform, performance-optimized mobile solutions with clean UI design, state management, and seamless backend integration to ensure scalability and maintainability.

EDUCATION

Bachelor of Engineering

2021--2025

Electronics and Communication Engineering

GPA: 7.86/10
